EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ho Sang Lee on 11/20/2008.

The application has been amended as follows:

Claim 1 is amended as follows:

A semiconductor laser device comprising:

A base portion having a horizontal top surface;

A heat sink portion that has a vertical element mount surface and is located above the top surface of the base portion;

A semiconductor laser element that is fixed to the element mount surface and

A depression that is formed in the top surface of the base portion located immediately below the semiconductor laser element so as to receive part of the semiconductor laser element disposed therein,

Wherein the heat sink portion is fixed to the base portion in such a way that the element mount surface is located inward of an inner side surface of the depression and that a portion of a bottom surface of the heat sink portion does not contact with the base portion ---, **and wherein the semiconductor laser element is fixed to the heat sink portion via a submount, part of which is disposed in the depression, and the top**

Art Unit: 2828

surface of the submount is disposed below the top surface of the semiconductor laser element and the bottom surface of the submount is disposed below the bottom surface of the semiconductor laser element---

Claim 6 is amended as follows.

The semiconductor laser device of ~~one of claims 1 to 5~~ ---**claim 1, 2, 4, or 5---**,

Wherein the depression has a rough bottom surface that prevents feedback light from being produced by diffusely reflecting secondary laser light.

Claim 7 is amended as follows:

The semiconductor laser device of ~~one of claims 1 to 5~~ ---**claim 1, 2, 4, or 5---**,

Wherein the depression has an inclined bottom surface.

Allowable Subject Matter

2. Claims 1, 2, and 4-8 are allowed.
3. The following is an examiner's statement of reasons for allowance: claim 1 has been amended to recite a submount portion which fixes the semiconductor laser element to the heat sink and the specific orientation of that submount with respect to the semiconductor laser element as shown in figure 1 of the instant application. The specific orientation of the laser element and submount in combination with the depression and heat sink structure is neither suggested nor made obvious in the prior

Art Unit: 2828

art. The examiner has interpreted "top surface" and "bottom surface" as shown in the figure below.

4.

5. The closest prior art of record is Hosokawa et al. (U.S. Pre-Grant Publication Number 2004/0105472). Hosokawa et al. does not disclose part of the bottom portion of the heat sink not contacting the base. However, this limitation is made obvious by the prior art. See for instance JP 2-9461 as provided by applicant in the IDS filed on 05/11/2006. However, Hosokawa et al. does not show the orientation of the submount and the laser element. This limitation is not made obvious by the prior art as there appears to be no motivation for such an orientation in the prior art.

6. The examiner also notes Cho (U.S. Pre-Grant Application 2005/0265410). While Cho does not constitute prior art it is considered extremely relevant to the application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOSHUA KING whose telephone number is (571)270-1441. The examiner can normally be reached on Mon.-Thurs. 10:00-7:30 and other Fri. 10:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Min Sun Harvey can be reached on 571-272-1835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
